CAROL S. DIBBLE.

A delightful afternoon was passed by the members and guests of the Birthday Club Anfall last Friday, when they met at the home of Mrs. John Noud to celebrate her birthday, occurring on that day. The rooms were a festive air, being attractively decorated with roses, sweet peas and baby breath, while the fireplace was banked with greenery, relieved by touches of white. Five hundred was played during the afternoon, the guests circling three tables. The high score fell to Mrs. Frank Davey and the second prize to Mrs. Walsh. The guests also enjoyed several musical selections throughout the afternoon. Miss Susy Noud and Mrs. Elmer McKinney assisted in serving. The Birthday Club Anfall is a very unique club, and one that conduces to much pleasure and gaiety on the part of the members in many ways. A rumor has been abroad for some time that Julia Marlowe was going to retire from the stage. Recently it has been confirmed by her husband, R. H. Sothorn. To those of the theater-going public who are especially devoted to Shakespearean drama, this will be a deep loss, as Julia Marlowe is one of the foremost interpreters of Shakespeare on the stage today. But all who have once seen her in "As You Like It" and others will have the memory of the voice and presence that contributed to what is universally recognized as great acting.

Dr. and Mrs. D. L. Tasker, who arrived Saturday on a motor trip from Los Angeles, are visiting friends in Salem, among whom are Mr. and Mrs. John H. Scott, Mrs. R. F. Wallace and Paul Wallace. Considerable attention is being paid to two short streets of road that was called this spring when the city of Hubbard called the streets, to see how they compare with the road on either side of them. First Palmer called the road in front of his home for possibly 150 yards on the east of town; on the south of town Frank Barrett and W. H. Palmer did the same. Up to date it makes no difference how son are traveling it is appreciated when these short stretches of road are un-constructed. The dust is held on the road and does not wear in ruts like the rest of the road. There has been an argument made in favor of calling as yet, but the opinion is fast forming that all on the roads would be necessary.—Katherine.

Man Without Memory May Yet Recover

Palo Alto, Cal., Aug. 17.—That "Harry Walker", the man without a memory, has an excellent chance to recover in the near future, that he is not a faker and that his present condition is the result of an injury to his head, where by normal action of motor and speech of the brain were interfered with, are the results of the examination by Dr. Robert Reynolds of Palo Alto, of the mystery man who is being sheltered by Mrs. L. C. Merriman, of this city.

"Walker will certainly recover all of his functions," said Dr. Reynolds. "There is a possibility, however, that he may never fully regain his memory of past events or of his correct identity."

"His present condition was caused apparently by a serious injury to the head, which made necessary an operation."

Rest, quiet and good nourishing food—all things leading to his physical well-being—were advocated by Dr. Reynolds as the best method of aiding Walker to recover his memory.

Dr. John Edgar Cooper, assistant professor of psychology at Stanford university, who has been studying Walker from a psychological viewpoint, said he thought Walker would be smart enough not to reveal his name to the public when he did recall it, thus protecting his chances of obtaining employment.
